

TRAFFIC CONTROL COURSE

March 14, 2007

TOPIC: OCA's Traffic Control Training Course is designed to provide participants with an understanding of the principles of traffic control systems. This full-day session provides students an opportunity to understand the industry standards for maintaining traffic through a work zone. The focus of this training is the relationship between safety and efficiency. Each participant will be required to learn how and where to access information from the MUTCD. A working relationship with the manual is a requirement for successfully completing the course.
